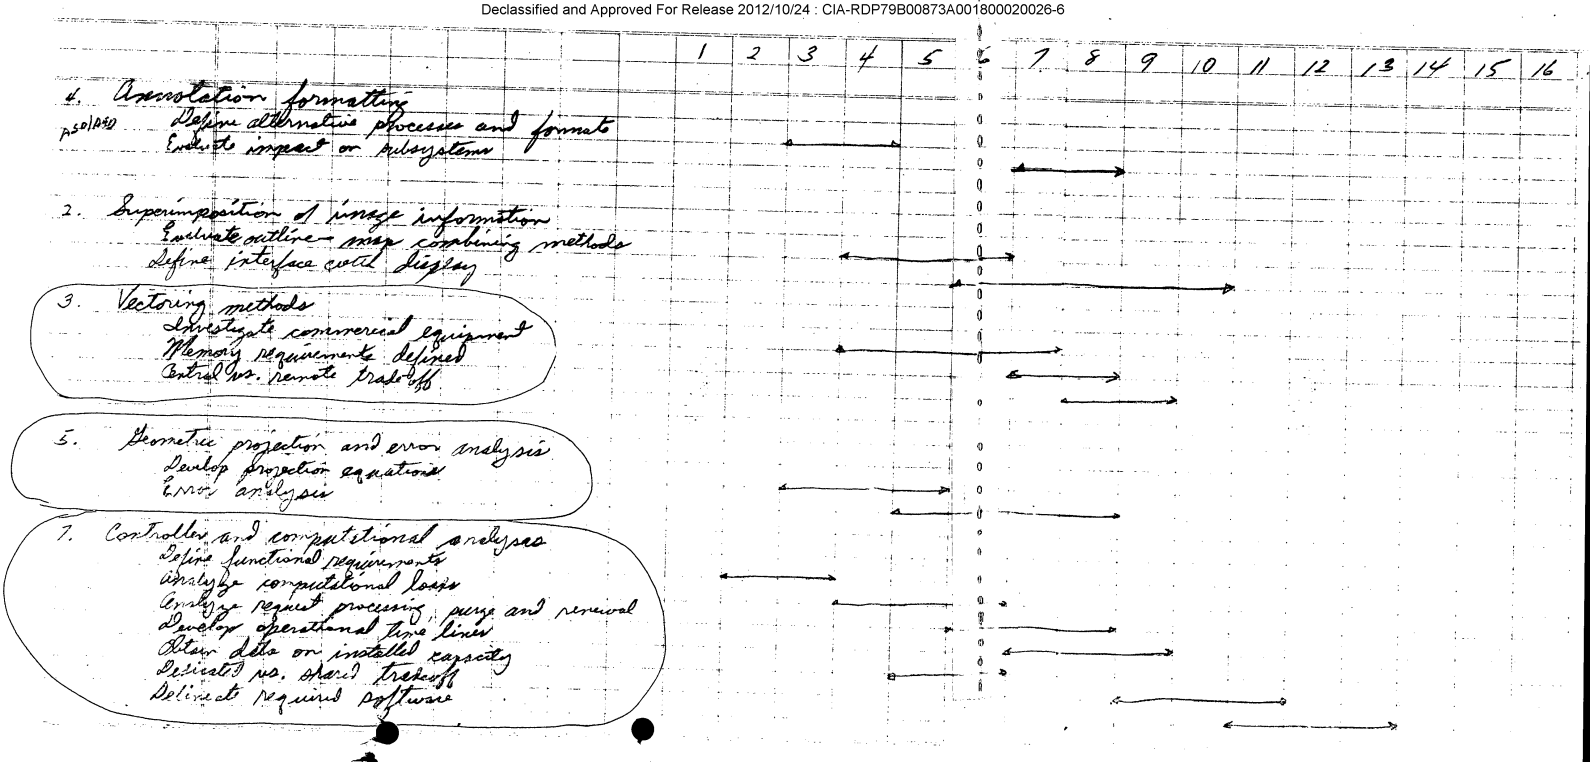
Declassified and Approved For Release 2012/10/24 : CIA-RDP79B00873A001800020026-6



1 2 3 4 5 6 7 8 9 10 11 12 13 14 15 16
4. Association formatting
PSD/DSD
Define alternative processes and formats
Evaluate impact on subsystems
2. Superimposition of image information
Evaluate outline map combining methods
Define interface with display
3. Vectoring methods
Investigate commercial equipment
Memory requirements defined
Central vs. remote trade-off
5. Geometric projection and error analysis
Develop projection equations
Error analysis
7. Controller and computational analyses
Define functional requirements
Analyze computational loads
Analyze request processing, purge and renewal
Develop operational time lines
Obtain data on installed capacity
Dedicated vs. shared tradeoff
Delineate required software

Declassified and Approved For Release 2012/10/24 : CIA-RDP79B00873A001800020026-6
